

NIST 800-171 COMPLIANCE

NIST 800-171 Policy - 3.4 Configuration Management

Enforceable policy implementing the NIST SP 800-171 rev. 2 'Configuration Management' family (3.4) across BVTech LLC and, where contracted, managed client environments. Statements below are binding on all personnel.

Document ID	BVT-CMP-104
Version	1.0
Effective date	July 28, 2026
Document owner	Jordan Polasek, Managing Partner
Classification	Internal - BVTech LLC Confidential
Review cycle	Annual, or upon material change

Purpose & Authority

This policy implements the Configuration Management requirement family of NIST SP 800-171 rev. 2 as part of BVTech LLC's security program. It is issued under the authority of the Managing Partner and applies to all employees, contractors, and systems that store, process, or transmit company or client data.

Policy Statements

- Baseline configurations and inventories of systems, hardware, software, and firmware are established and maintained through each system's lifecycle.
- Security configuration settings are established, enforced, and documented for all technology products employed.
- Changes to systems are tracked, reviewed, approved via change control, and analyzed for security impact before deployment.
- Nonessential programs, functions, ports, protocols, and services are restricted, disabled, or removed.
- Software execution follows a deny-by-default posture where feasible (application allow-listing on servers and high-risk endpoints).
- User-installed software is controlled and monitored; unauthorized software is removed on detection.

How BVTech Implements This

Enforced through RMM configuration baselines, automated software inventory in Pulse, documented change tickets, and hardening checklists applied at onboarding (BVT-CHK series).

Roles & Responsibilities

- Managing Partner - owns this policy, approves exceptions in writing, and reviews it annually.
- Technicians and administrators - implement and maintain the controls in the systems they manage.

- All personnel - comply with the statements above and report suspected violations immediately.

Exceptions & Enforcement

Exceptions require a written, time-boxed waiver from the Managing Partner recorded in the risk register. Violations may result in discipline up to termination and, for contractors, termination of engagement. This policy is reviewed annually and upon material change.
