

NIST 800-171 COMPLIANCE

NIST 800-171 Policy - 3.6 Incident Response

Enforceable policy implementing the NIST SP 800-171 rev. 2 'Incident Response' family (3.6) across BVTech LLC and, where contracted, managed client environments. Statements below are binding on all personnel.

Document ID	BVT-CMP-106
Version	1.0
Effective date	July 28, 2026
Document owner	Jordan Polasek, Managing Partner
Classification	Internal - BVTech LLC Confidential
Review cycle	Annual, or upon material change

Purpose & Authority

This policy implements the Incident Response requirement family of NIST SP 800-171 rev. 2 as part of BVTech LLC's security program. It is issued under the authority of the Managing Partner and applies to all employees, contractors, and systems that store, process, or transmit company or client data.

Policy Statements

- An operational incident-handling capability exists covering preparation, detection, analysis, containment, recovery, and user response activities.
- Incidents are tracked, documented, and reported to designated internal officials and, where contract or law requires, to affected clients and authorities within required timelines.
- The incident response capability is tested at least annually via tabletop or functional exercise.
- Post-incident reviews capture lessons learned and feed corrective actions into policy and configuration baselines.

How BVTech Implements This

Operationalized in BVT-IRP-045 (Incident Response Plan), the ransomware and BEC playbooks, and Texas Bus. & Com. Code Sec. 521.053 notification procedures in BVT-TXL-208.

Roles & Responsibilities

- Managing Partner - owns this policy, approves exceptions in writing, and reviews it annually.
- Technicians and administrators - implement and maintain the controls in the systems they manage.
- All personnel - comply with the statements above and report suspected violations immediately.

Exceptions & Enforcement

Exceptions require a written, time-boxed waiver from the Managing Partner recorded in the risk register. Violations may result in discipline up to termination and, for contractors, termination of engagement. This policy is reviewed annually and upon material change.
