Purpose & Authority

This policy implements the Physical Protection requirement family of NIST SP 800-171 rev. 2 as part of BVTech LLC's security program. It is issued under the authority of the Managing Partner and applies to all employees, contractors, and systems that store, process, or transmit company or client data.

Policy Statements

- Physical access to systems, equipment, and operating environments is limited to authorized individuals.
- Visitors are escorted, their activity monitored, and physical access is logged; audit logs of physical access are retained.
- Physical access devices (keys, badges, codes) are controlled, inventoried, and rotated on personnel change.
- Safeguarding measures for sensitive data are enforced at alternate work sites (home offices), including screen privacy, locked storage, and household-member exclusion from work devices.

How BVTech Implements This

Implemented via keyed/badged access at BVTech facilities, the visitor log (BVT-FRM-262), and the Remote Work Standard for technician home offices.

Roles & Responsibilities

- Managing Partner - owns this policy, approves exceptions in writing, and reviews it annually.
- Technicians and administrators - implement and maintain the controls in the systems they manage.
- All personnel - comply with the statements above and report suspected violations immediately.

Exceptions & Enforcement

Exceptions require a written, time-boxed waiver from the Managing Partner recorded in the risk register. Violations may result in discipline up to termination and, for contractors, termination of engagement. This policy is reviewed annually and upon material change.
