

NIST 800-171 COMPLIANCE

NIST 800-171 Policy - 3.13 System & Communications Protection

Enforceable policy implementing the NIST SP 800-171 rev. 2 'System & Communications Protection' family (3.13) across BVTech LLC and, where contracted, managed client environments. Statements below are binding on all personnel.

Document ID	BVT-CMP-113
Version	1.0
Effective date	July 28, 2026
Document owner	Jordan Polasek, Managing Partner
Classification	Internal - BVTech LLC Confidential
Review cycle	Annual, or upon material change

Purpose & Authority

This policy implements the System & Communications Protection requirement family of NIST SP 800-171 rev. 2 as part of BVTech LLC's security program. It is issued under the authority of the Managing Partner and applies to all employees, contractors, and systems that store, process, or transmit company or client data.

Policy Statements

- Communications are monitored, controlled, and protected at system boundaries; managed firewalls enforce deny-by-default at network perimeters.
- Networks are segmented to separate management, production, guest, and IoT traffic; publicly accessible components live in separated subnetworks.
- Remote activation of collaboration devices (cameras, microphones) is prohibited without user consent indicators.
- Cryptography protecting sensitive data uses accepted, modern algorithms; sensitive data in transit is encrypted (TLS 1.2+) and at rest on portable and cloud storage.
- Network communication traffic is denied by default and allowed by exception; split tunneling on remote clients is controlled.
- Cryptographic keys are established and managed under documented procedures.

How BVTech Implements This

Delivered through managed firewalls with segmented VLANs, enforced TLS on all BVTech services, DNS filtering, and M365 encryption controls - verified in the network audit checklist.

Roles & Responsibilities

- Managing Partner - owns this policy, approves exceptions in writing, and reviews it annually.
- Technicians and administrators - implement and maintain the controls in the systems they manage.
- All personnel - comply with the statements above and report suspected violations immediately.

Exceptions & Enforcement

Exceptions require a written, time-boxed waiver from the Managing Partner recorded in the risk register. Violations may result in discipline up to termination and, for contractors, termination of engagement. This policy is reviewed annually and upon material change.
