

NIST CSF 2.0 PROGRAM

CSF 2.0 Function Profile - RS Respond

Category-level implementation profile for the Respond function: Actions regarding a detected cybersecurity incident are taken.

Document ID	BVT-CSF-165
Version	1.0
Effective date	July 28, 2026
Document owner	Jordan Polasek, Managing Partner
Classification	Internal - BVTech LLC Confidential
Review cycle	Annual, or upon material change

Function Outcome

Actions regarding a detected cybersecurity incident are taken.

Category Implementation

- Incident Management: Incidents are declared, categorized, and managed per BVT-IRP-045 with named incident command.
- Incident Analysis: Scope, root cause, and impact are established and preserved forensically where legal action or insurance may follow.
- Reporting & Communication: Clients, carriers, and authorities are notified per contract and Texas Bus. & Com. Code Sec. 521.053 timelines.
- Mitigation: Containment and eradication actions follow the ransomware/BEC playbooks and are logged in the incident record.

Evidence Sources

Evidence for this function lives in the OpsPilot portal (posture history, audit log, training records, incident records) and the referenced BVT policy and checklist documents. Review annually with the profile worksheet.
