Function Outcome

Assets and operations affected by a cybersecurity incident are restored.

Category Implementation

- Incident Recovery Plan Execution: Restores follow the DR plan with integrity verification before returning systems to service.
- Incident Recovery Communication: Stakeholders receive honest status through recovery, and a post-incident review closes every declared incident.

Evidence Sources

Evidence for this function lives in the OpsPilot portal (posture history, audit log, training records, incident records) and the referenced BVT policy and checklist documents. Review annually with the profile worksheet.
