

CLIENT SERVICE DESCRIPTIONS

Service Description - Managed Security (MSSP)

Detection and response on top of managed IT: EDR, email defense, and a tested incident plan with Texas notification clocks built in.

Document ID	BVT-SVC-291
Version	1.0
Effective date	July 28, 2026
Document owner	Jordan Polasek, Managing Partner
Classification	Internal - BVTech LLC Confidential
Review cycle	Annual, or upon material change

What's Included

- Managed EDR on every endpoint with 24/7 alert triage
- Email security: filtering, impersonation protection, DKIM/DMARC
- Security awareness training with quarterly phishing simulation
- Vulnerability visibility tied to the CISA KEV catalog
- Incident response retainer - the plan, the playbooks, the drill
- Compliance evidence pack aligned to NIST CSF 2.0

How Engagements Work

Services are delivered under the BVTech Master Services Agreement with a service-specific statement of work and the published Service Level Agreement. Every engagement begins with the new-client security audit so pricing reflects your real environment - book a 15-minute intro at bvtech.org/book.
