

SECURITY AWARENESS ONE-PAGERS

Security Awareness - Spotting Phishing

The five tells in every phish and the 30-second verification habit.

Document ID	BVT-TRN-250
Version	1.0
Effective date	July 28, 2026
Document owner	Jordan Polasek, Managing Partner
Classification	Internal - BVTech LLC Confidential
Review cycle	Annual, or upon material change

What To Know

- Urgency is the weapon: 'right now', 'before 5pm', 'don't tell anyone' - slow down exactly when pushed to hurry.
- Check the actual address, not the display name - one letter off is a different domain.
- Hover every link before clicking; mismatched destinations end the conversation.
- Unexpected attachments get verified by a second channel - call the sender on a number you already have.
- Report it: one click to your reporting button beats deleting it - it protects everyone else too.

One Habit

When anything feels off - an email, a call, a prompt, a device - report it immediately and without embarrassment. Early reports are how small events stay small. Reporting channel: your helpdesk ticket portal or help@bvtech.org.
