

SECURITY AWARENESS ONE-PAGERS

Security Awareness - Business Email Compromise & Wire Fraud

The most expensive attack per incident - and the phone call that defeats it.

Document ID	BVT-TRN-253
Version	1.0
Effective date	July 28, 2026
Document owner	Jordan Polasek, Managing Partner
Classification	Internal - BVTech LLC Confidential
Review cycle	Annual, or upon material change

What To Know

- A changed bank account, a rushed invoice, an executive asking for gift cards: classic BEC.
- Verify EVERY payment-detail change by phone using a number you already had - never the one in the email.
- Check reply-to addresses; compromised threads look legitimate because they are - the account is stolen.
- Dual approval on payments above threshold is policy, not bureaucracy.
- Seconds matter after a bad transfer: report instantly - recalls sometimes work in the first hours.

One Habit

When anything feels off - an email, a call, a prompt, a device - report it immediately and without embarrassment. Early reports are how small events stay small. Reporting channel: your helpdesk ticket portal or help@bvtech.org.
