

SECURITY AWARENESS ONE-PAGERS

Security Awareness - Social Engineering Beyond Email

Phone, text, and walk-in attacks - same con, different channel.

Document ID	BVT-TRN-254
Version	1.0
Effective date	July 28, 2026
Document owner	Jordan Polasek, Managing Partner
Classification	Internal - BVTech LLC Confidential
Review cycle	Annual, or upon material change

What To Know

- 'IT support' calling to fix a problem you didn't report isn't IT support.
- Smishing texts about packages and payroll aim at your phone because it has fewer defenses - same rules apply.
- Tailgating is friendly: hold the door for people you know; badge everyone else.
- QR codes are links wearing a costume - preview before opening.
- Verification isn't rudeness; real colleagues and vendors expect it.

One Habit

When anything feels off - an email, a call, a prompt, a device - report it immediately and without embarrassment. Early reports are how small events stay small. Reporting channel: your helpdesk ticket portal or help@bvtech.org.
