

SECURITY AWARENESS ONE-PAGERS

Security Awareness - Mobile Device Security

The office in your pocket, protected like one.

Document ID	BVT-TRN-256
Version	1.0
Effective date	July 28, 2026
Document owner	Jordan Polasek, Managing Partner
Classification	Internal - BVTech LLC Confidential
Review cycle	Annual, or upon material change

What To Know

- Screen lock + biometrics, always; a lost unlocked phone is a lost mailbox.
- Install updates when offered - mobile exploits are patched by them weekly.
- Apps come from official stores only, and even then check the publisher.
- Public USB charging can be data-hostile; carry your own charger or use a data blocker.
- Report lost/stolen devices immediately - remote wipe wins races.

One Habit

When anything feels off - an email, a call, a prompt, a device - report it immediately and without embarrassment. Early reports are how small events stay small. Reporting channel: your helpdesk ticket portal or help@bvtech.org.
