

SECURITY AWARENESS ONE-PAGERS

Security Awareness - Travel Security

Working from anywhere without leaking from everywhere.

Document ID	BVT-TRN-257
Version	1.0
Effective date	July 28, 2026
Document owner	Jordan Polasek, Managing Partner
Classification	Internal - BVTech LLC Confidential
Review cycle	Annual, or upon material change

What To Know

- Public Wi-Fi is fine for coffee menus, not for client work - use the VPN or hotspot.
- Privacy screens defeat shoulder surfing on planes and in lobbies.
- Devices stay on your person or locked in the safe - never checked luggage or car seats.
- Border crossings with client data follow the travel-device procedure - ask before you fly.
- Assume hotel networks are hostile; the VPN isn't optional there.

One Habit

When anything feels off - an email, a call, a prompt, a device - report it immediately and without embarrassment. Early reports are how small events stay small. Reporting channel: your helpdesk ticket portal or help@bvtech.org.
