

SECURITY AWARENESS ONE-PAGERS

Security Awareness - Remote Work Security

Home-office rules that keep client trust intact.

Version	1.0
Effective date	July 28, 2026
Document owner	Jordan Polasek, Managing Partner
Classification	Internal - BVTech LLC Confidential
Review cycle	Annual, or upon material change

What To Know

- Work happens on work devices; family members and personal browsing stay off them.
- Home Wi-Fi: WPA2/3, a real router password, and current firmware - we'll help you check.
- Lock the screen when you walk away, even at home; kids and cats deploy surprising keystrokes.
- Sensitive calls happen where smart speakers and visitors can't listen.
- Company data lives in company systems - never on personal drives 'just to finish tonight'.

One Habit

When anything feels off - an email, a call, a prompt, a device - report it immediately and without embarrassment. Early reports are how small events stay small. Reporting channel: your helpdesk ticket portal or help@bvtech.org.
