What Your Profession Requires

FTC Safeguards Rule + IRS Pub. 4557 - a WISP is legally required, and PTIN renewal attests to it.

The Four Things That Matter

- Every paid preparer must maintain a written information security plan (WISP).
- EFIN theft and client-refund fraud are the top attacks on tax practices.
- Our CPA WISP (BVT-VRT-181) satisfies the requirement the day you adopt it.
- Filing-season uptime is an SLA here, not a hope.
