What Your Profession Requires

HIPAA Security Rule safeguards + annual SRA evidence for MIPS audits.

The Four Things That Matter

- HIPAA requires an annual security risk assessment - we run it and hand you the evidence.
- Practice-management downtime is measured in cancelled chairs; recovery objectives fix that.
- Encrypted-everything: devices, backups, transmissions - verified, not assumed.
- BAA signed on day one (BVT-LGL-010); program in BVT-VRT-185.
