Texas is an at-will employment state. This handbook is not a contract of employment and does not alter at-will status. Have employment counsel review before first hire signs.

Welcome & Values

BVTech exists to give Texas businesses enterprise-grade technology with small-town accountability. We do excellent work, we do it honestly, and we treat clients and each other with respect. "Whatever you do, work at it with all your heart" (Colossians 3:23) is the standard we hold ourselves to.

Employment Basics

- At-will employment: either party may end employment at any time, with or without cause or notice.
- Equal opportunity: employment decisions are made without regard to race, color, religion, sex, national origin, age, disability, genetic information, veteran status, or any status protected by law. We are proudly veteran-friendly.
- Classifications and pay: exempt/non-exempt status assigned per FLSA; non-exempt time is recorded accurately and overtime requires prior approval; payday schedule provided at hire.
- Reasonable accommodation: requests are handled through the Managing Partner via the interactive process.

Conduct

- Professionalism with clients at all times — we are guests on their systems and in their offices.
- Zero tolerance for harassment or discrimination; reports go to the Managing Partner (or, if the concern involves the Managing Partner, to outside counsel contact provided at hire); no retaliation for good-faith reports.
- Substance policy: no impairment on duty or on client sites; safety-sensitive work (driving, ladders, electrical proximity) demands full alertness.
- Company property (vehicles, tools, devices) is used for business, maintained responsibly, and returned upon separation.

Technology & Confidentiality

- All personnel comply with the BVTech security policy suite (BVT-POL-031 through 044) — it is a condition of employment.
- Client data confidentiality survives employment; see the Confidentiality & IP Agreement (BVT-INT-064).
- Business systems are monitored per policy; use business systems for business.
