

Managed Services Proposal Template

Standard proposal structure with pricing presentation

Document ID: BVT-INT-068

Version: 1.0

Issued: July 02, 2026

Effective Date: _____

Prospect: _____

Prepared By: _____

Date: _____

Valid Through: _____

1. Executive Summary

One paragraph in the prospect's language: their situation, the risk/cost of the status quo, what BVTech will deliver, and the outcome they can expect. No jargon.

2. What We Found (Assessment Summary)

Area	Current State	Risk / Impact	Our Recommendation
Security			
Backup & recovery			
Infrastructure & lifecycle			
Support experience			

3. Recommended Plan

Included Service	Essential	Professional	Complete
Help desk & RMM	•	•	•
Patch management	•	•	•
Managed EDR		•	•
Email security & M365 baseline		•	•
Managed backup + restore testing	•	•	•
Security awareness training			•
Dark web monitoring			•

Included Service	Essential	Professional	Complete
vCIO / QBR cadence	Annual	Semi-annual	Quarterly
Price per user / month	\$	\$	\$

4. Onboarding Project

One-time onboarding (discovery, agent deployment, security baseline, backup implementation, documentation): \$_____, delivered over the first 30 days per our onboarding runbook. Out-of-scope items are quoted separately before any work begins — no surprise invoices, ever.

5. Why BVTech

- Texas-owned and operated since 2013; SuperOps Solo MSP of the Year 2023.
- Security-first: NIST CSF 2.0-aligned policy program behind every client we manage.
- Documented, tested backups — we report restore tests, not just green checkmarks.
- Direct access to senior engineering; your issues never disappear into a queue.

6. Next Steps

- 1 Choose your plan and sign the agreement packet (MSA, Managed Services Agreement, SLA).
- 2 We schedule kickoff within 5 business days and begin the 30-day onboarding.
- 3 You get your first baseline report at day 30 — and your first QBR on the calendar.
