

Acceptable Use Policy (Client-Facing)

Rules for use of BVTech-managed systems, networks, and services

Document ID: BVT-LGL-007

Version: 1.0

Issued: July 02, 2026

Effective Date: _____

Application

This Acceptable Use Policy ("AUP") applies to all users of systems, networks, and services managed or provided by BVTech LLC, including the OpsPilot client portal. Client is responsible for its users' compliance. Violations may result in suspension of affected services after notice where practicable (immediately for security emergencies).

Prohibited Activities

- Illegal activity of any kind, including violation of export control, intellectual property, or privacy laws.
- Unauthorized access attempts, credential sharing, or circumvention of security controls on any system.
- Transmission of malware, phishing, spam, or other abusive content.
- Using managed services to attack, scan, or disrupt third-party systems without written authorization.
- Storing or processing regulated data (e.g., PHI, cardholder data) on systems not designated and configured for that purpose.
- Disabling, removing, or tampering with monitoring, security, or backup agents deployed by BVTech.
- Harassment, threats, or content that is defamatory or unlawfully discriminatory transmitted via managed services.

User Account Requirements

- Unique accounts per user; no shared logins for privileged access.
- Multi-factor authentication where deployed; users may not opt out.
- Prompt reporting of lost devices, suspected compromise, or phishing to the BVTech service desk.
- Departing-user accounts must be reported to BVTech before or on the departure date.

Monitoring Notice

Managed systems are monitored for security, performance, and compliance purposes. Users should have no expectation of privacy in activity on Client-owned, BVTech-managed business systems, to the extent permitted by law. Client is responsible for providing any legally required notices to its own users.

Enforcement

BVTech may quarantine devices, disable accounts, or block traffic to protect Client or third parties from imminent harm, and will notify Client's designated contact as soon as practicable. Repeated or willful violations constitute material breach of the applicable services agreement.

IN WITNESS WHEREOF, the parties have executed this document as of the Effective Date.
