

Penetration Testing Authorization & Rules of Engagement

Written authorization for security testing activities

Document ID: BVT-SEC-018

Version: 1.0

Issued: July 02, 2026

Effective Date: _____

Authorization

Client, being the owner or authorized operator of the systems identified below, hereby authorizes BVTech LLC and its designated testers to perform the security testing described in this document. This authorization is Client's informed consent to activities that would otherwise be prohibited by law, including the Computer Fraud and Abuse Act (18 U.S.C. § 1030) and Texas Penal Code Chapter 33, within the defined scope and window only.

Scope

Item	Detail
In-scope IP ranges / hosts	
In-scope domains / applications	
In-scope cloud tenants	
Explicitly out of scope	
Testing window (dates/times, CT)	
Testing type	External / Internal / Web App / Wireless / Social Engineering / Physical (circle)
Techniques excluded	e.g., DoS testing, destructive exploits, production data exfiltration

Rules of Engagement

- Testers will use reasonable care to avoid service disruption; potentially disruptive tests require prior same-day approval from the emergency contact.
- Any credentials, data samples, or access obtained will be handled as Confidential Information, minimized, and securely destroyed after report delivery.
- Testing stops immediately upon request of the emergency contact or upon discovery of evidence of a real ongoing compromise, which will be reported at once.
- Client represents it has authority over all in-scope assets, and shall notify and obtain consent from any third-party host (ISP, colocation, SaaS) whose terms require it.
- Findings will be reported in a written deliverable with severity ratings and remediation guidance; raw exploitation details are shared only with authorized contacts.

Emergency Contacts

Role	Name	Phone	Email
Client authorizing officer
